**DISTRICT COUNCIL**

**Notice is given of an Engineering and Services Committee Meeting to be held on:**

**Date: Tuesday, 16 November 2021**  
**Time: Following Extraordinary Council Meeting**  
**Location: Council Chambers**  
**Fairlie**

## **AGENDA**

### **Engineering and Services Committee Meeting**

**16 November 2021**

Note: This meeting may be digitally recorded by the minute-taker.

**Engineering and Services Committee Membership:**

Stuart Barwood (Chair)  
Emily Bradbury  
Murray Cox  
James Leslie  
Anne Munro  
Matt Murphy  
Graham Smith

\*\*\*\*\*

**The purpose of local government:**

(1) The purpose of local government is—

- (a) to enable democratic local decision-making and action by, and on behalf of, communities; and
- (b) to meet the current and future needs of communities for good-quality local infrastructure, local public services, and performance of regulatory functions in a way that is most cost-effective for households and businesses.

(2) In this Act, good-quality, in relation to local infrastructure, local public services, and performance of regulatory functions, means infrastructure, services, and performance that are—

- (a) efficient; and
- (b) effective; and
- (c) appropriate to present and anticipated future circumstances.

(Local Government Act 2002)

### **5.1 MINUTES OF ENGINEERING AND SERVICES COMMITTEE MEETING - 17 AUGUST 2021**

**Author:** Arlene Goss, Governance Advisor

**Authoriser:**

**Attachments:** 1. **Minutes of Engineering and Services Committee Meeting - 17 August 2021**

#### **RECOMMENDATION**

1. That the Minutes of the Engineering and Services Committee Meeting held on Tuesday 17 August 2021 be received and confirmed as an accurate record of the meeting.

**Mackenzie**

DISTRICT COUNCIL

**Unconfirmed MINUTES**

**Engineering and Services Committee  
Meeting**

**17 August 2021**

**MINUTES OF MACKENZIE DISTRICT COUNCIL  
ENGINEERING AND SERVICES COMMITTEE MEETING  
HELD AT THE COUNCIL CHAMBERS, FAIRLIE  
ON TUESDAY, 17 AUGUST 2021 AT 9.30AM**

**PRESENT:** Cr Stuart Barwood (Chairperson), Cr Emily Bradbury, Cr Murray Cox, Cr James Leslie, Cr Anne Munro, Cr Matt Murphy, Mayor Graham Smith

**IN ATTENDANCE:** Angela Oosthuizen (Acting Chief Executive), Paul Numan (GM Corporate Services), Tim Harty (GM Operations), Dave Adamson (Acting Engineering Manager), Chris Clarke (Communications Advisor), Scott McKenzie (Roading Manager), Mike Davies (Programme Manager 3 Waters), Geoff Horler (Utilities Manager), Angie Taylor (Solid Waste Manager), Brian Milne (Community Services Officer), Arlene Goss (Governance Advisor), Peter Dawson (Beca), one member of the media

**1 OPENING**

The chairman welcomed everyone to the meeting.

**2 APOLOGIES**

There were no apologies.

**3 DECLARATIONS OF INTEREST**

There were no declarations of interest.

**4 VISITORS**

There were no visitors other than staff.

**5 REPORTS**

**5.1 MINUTES OF ENGINEERING AND SERVICES COMMITTEE MEETING - 20 APRIL 2021**

**COMMITTEE RESOLUTION ENG/2021/14**

Moved: Mayor Graham Smith

Seconded: Cr Emily Bradbury

1. That the Minutes of the Engineering and Services Committee Meeting held on Tuesday 20 April 2021 be received and confirmed as an accurate record of the meeting.

**CARRIED**

## 5.2 3 WATERS AND FOOTPATH PROJECT UPDATE

Peter Dawson from Beca was present to answer questions. Mr Harty introduced him.

Mr Dawson updated the councillors on progress with the Fairlie water treatment plant. Engagement had been held with iwi and neighbours. The project risk was noted as high due to water reform and contractor availability. The membrane also had a long lead time of a year to 18 months.

The chairman was concerned about the costs of the Fairlie Water Treatment Plant, as stated in the explanation of \$1million for an extra reservoir. He believed there were alternatives that needed to be considered.

Discussion took place on the pace of the project. The chairman thought Council was moving far too slow. Mr Harty noted that money for the project was in the Long Term Plan and this had not yet been approved. Until it was approved Council could not spend any more funds. Also the supply chain issues were slowing the project.

Further questions were asked about the details of the project and discussion included the requirements of a robust design and procurement process.

The acting chief executive asked staff to introduce a financial report to future updates to track spending and borrowing.

Mr Dawson was thanked for his report and he left the room.

### COMMITTEE RESOLUTION ENG/2021/15

Moved: Cr Stuart Barwood

Seconded: Cr Anne Munro

That the information be noted.

**CARRIED**

## 5.3 THREE WATERS STIMULUS GRANT PROGRAMME UPDATE

Programme manager Mike Davies updated the committee on current work. He said he would be ordering materials immediately due to current problems with supply.

There had been a discussion with iwi who were very interested in the subject and keen to engage. They supported water metering for Twizel.

The chairman asked for an update on Ecan and compliance. Mr Davies said there had been various discussions regarding de-sludging. There was now a design for Burkes Pass to address compliance matters and this would go out for tender soon. The chairman asked if Mr Davies was confident about meeting the timeframe. Mr Davies said he had been under pressure from DIA to spend the money and if the original timeframe could not be met, plan B was to spend more money on water supply renewals.

Crown infrastructure were planning an onsite visit on August 31.

### COMMITTEE RESOLUTION ENG/2021/16

Moved: Cr Stuart Barwood

Seconded: Cr Anne Munro

That the information be noted.

**CARRIED**

#### **5.4 COMMUNITY FACILITIES REPORT**

The report gave the committee an overview of activities within the community facilities area, with specific focus on township maintenance works.

Community facilities officer Brian Milne took the councillors through the report. Parks and maintenance had gone quiet in winter. There were significant issues to resolve around the heating of the two swimming pools. The biggest problem was the upgrade of the transformer at the Twizel pool to support a new heat pump, which was a big job and would take up to 18 months to complete.

The advantages of the heat pump were discussed. Cr Cox asked if money was now being put away to upgrade these systems. Mr Harty said it was correct that there wasn't a pool of money put aside to do these, and the acting chief executive said she could find out how much depreciation was in the reserve for pool upgrades. A report would need to come to the next council meeting on this.

Council requested a full report on both swimming pools come to the next meeting. They noted it was important to get this work underway due to the coming swimming season.

Cr Leslie said there was urgency needed in dealing with the Twizel School rebuild, in terms of the shared library facility. The Ministry of Education was moving forward with the rebuild and Council needed to get the MOU re-done. The acting chief executive said the Ministry of Education was coming to the district to visit and a meeting would be organised.

#### **COMMITTEE RESOLUTION ENG/2021/17**

Moved: Cr Anne Munro

Seconded: Cr Emily Bradbury

1. That staff prepare a report for Council to consider the preparation of a Reserve Management Plan for the Ruataniwha Reserve.
2. That staff refer a proposal for the development of the Ohau Rd Reserve to the Twizel Community Board for their consideration.
3. That the committee instructs staff to compile a report on the Fairlie and Twizel pools and brings that back to Council as soon as possible for consideration.

**CARRIED**

#### **5.5 COMMUNITY SERVICES AND WASTE REPORT**

Solid waste manager Angie Taylor joined the meeting. She updated the councillors on current initiatives within waste management. She was waiting for the Long Term Plan process to finish before she could introduce green organic waste bins.

A local in Twizel was running a bike waste collection service. She is picking up organic waste on her bike and recycling it. A school-based recycling programme called "Paper for Trees" was running in the schools.

The councillors said people were looking forward to having green waste bins. Cr Munro would also like to support further recycling in the agriculture sector.

Cr Murphy asked whose responsibility it was to pick up litter on highways. On state highways this is Waka Kotahi (NZTA).

**COMMITTEE RESOLUTION ENG/2021/18**

Moved: Cr Stuart Barwood

Seconded: Cr Anne Munro

That the information be noted.

**CARRIED**

**5.6 ENGINEERING MANAGER'S REPORT**

Engineering manager Dave Adamson said the team was busy working on the annual report.

The new Burkes Pass water treatment plant was producing some very high quality water. Council was far exceeding the number of water quality tests required and was complying with the drinking water standards.

Flood damage from the end of June was being repaired within the budgets available.

Cr Munro congratulated staff on finishing the street lighting project, and Cr Leslie added compliments on the cycleway work in Twizel.

**COMMITTEE RESOLUTION ENG/2021/19**

Moved: Cr Stuart Barwood

Seconded: Cr Anne Munro

That the information be noted.

**CARRIED**

**6 PUBLIC EXCLUDED**

**RESOLUTION TO EXCLUDE THE PUBLIC**

**COMMITTEE RESOLUTION ENG/2021/20**

Moved: Cr Anne Munro

Seconded: Cr James Leslie

That the public be excluded from the following parts of the proceedings of this meeting.

The general subject matter of each matter to be considered while the public is excluded, the reason for passing this resolution in relation to each matter, and the specific grounds under

section 48 of the Local Government Official Information and Meetings Act 1987 for the passing of this resolution are as follows:

General subject of each matter to be considered	Reason for passing this resolution in relation to each matter	Ground(s) under section 48 for the passing of this resolution
<p><b>6.1 - Update on Road Maintenance Contract Renewal Process</b></p>	<p>s7(2)(i) - the withholding of the information is necessary to enable Council to carry on, without prejudice or disadvantage, negotiations (including commercial and industrial negotiations)</p>	<p>s48(1)(a)(i) - the public conduct of the relevant part of the proceedings of the meeting would be likely to result in the disclosure of information for which good reason for withholding would exist under section 6 or section 7</p>

**CARRIED**

**COMMITTEE RESOLUTION ENG/2021/21**

Moved: Cr Stuart Barwood  
 Seconded: Mayor Graham Smith

That the committee moves out of closed meeting into open meeting.

**CARRIED**

**The Meeting closed at 11.40am.**

**The minutes of this meeting were confirmed at the Engineering and Services Committee Meeting held on .**

.....  
**CHAIRPERSON**

**5.2 WASTE MINIMISATION AND MANAGEMENT****N/A****Author:** Angie Taylor, Community Services and Solid Waste Officer**Authoriser:** David Adamson, General Manager Operations - Acting**Attachments:** Nil**STAFF RECOMMENDATIONS**

That the information be noted.

**BACKGROUND****Waste Minimisation and Management Contract**

The new Waste Minimisation and Management Contract commenced on 1 October. This is a long term contract that has been awarded to EnviroWaste. The new contract provides a range of opportunities for improved waste diversion and management that will provide benefits to the district in terms of reducing waste to landfill and lower carbon emissions.

The start of the new contract comes at a time that the waste sector is seeing a significant number of changes and an increase in priority on a national level. There has been an ongoing effort to create new opportunities for Mackenzie in the management of waste and the new contract provides an ideal time to take advantage of these opportunities and implement new systems and processes to advance our progress in waste diversion and minimisation.

New reporting will be provided to the Committee as new systems are implemented.

**Waste Levy reporting**

The National Waste Disposal Levy is being progressively increased in value and expanded to apply to additional disposal sites. From 1 January 2022, the reporting requirements for the levy are also being expanded and mandatory reporting requirements will apply to the Resource Recovery Parks in the Mackenzie. While these reporting changes will not alter the amount of levy payments, it will require additional staff time to meet the new levy obligations.

**Waste Levy Audit Outcome**

The National Waste Disposal Levy is administered by the Ministry for the Environment (MfE). Earlier this year, MfE carried out an audit of the Council's spend of the waste levy. The audit identified full compliance with obligations under the Waste Minimisation Act, as well as adherence to the Ministry's guidelines for planning for and spending levy funds. It is noted that MfE can withhold levy funding payments to Councils where they consider funds are not being spent appropriately and therefore compliance with the requirements is essential in retaining levy funding.

**Proposed Waste Legislation Changes**

There are a range of legislative changes proposed in the waste area. These include Te kawē i te haepapa para – Taking responsibility for our waste: a new waste strategy and issues and options for new waste legislation. The overarching vision of this new strategy is moving towards a circular economy, where resources are continued to be used and not wasted.

The proposal raises fundamental questions for the role of local government in waste, the allocation of revenue from the waste levy, licencing of waste operators, new information requirements, monitoring and enforcement as well as increased product stewardship responsibilities and national standards for waste, recycling and resource recovery.

In addition, a new Emissions Reduction Plan is proposed. This aims to set the direction for climate action for the next 15 years and provide a pathway to meeting the goal of 2050 net-zero greenhouse gas emissions and biogenic methane targets through the implementation of polices and strategies for a range of sectors, including waste.

The proposed changes will have important and significant changes in the waste area and staff are currently working on preparing a submission.

### **Clean/hardfill Resource Consent Application Update**

A resource consent application for the continued operation of the three existing cleanfill sites in the district was lodged in 2019. The previous consents for the cleanfill sites expired in November 2019, however as the new application was lodged within the appropriate timeframe, these sites can continue operating under Section 124 of the Resource Management Act while the application is being processed. The current application is for the discharge of contaminates to air and to land from cleanfills located in Twizel, Tekapo and Fairlie.

Site visits have recently been undertaken by Environment Canterbury as part of this application, with further updates to be provided as the application progresses.

### **Free Greenwaste Drop Off Day**

A free greenwaste drop off day was held at all three Resource Recovery Park sites on the Sunday during Labour Weekend. This has run for several years during Labour Weekend and continues to be well received. This provides an opportunity for property owners to clear vegetation and reduce fire risk within the townships.

Twizel – 16.52 tonnes – 102 cars/drop offs

Tekapo – 16m<sup>3</sup> – 16 cars/drop offs

Fairlie – 27m<sup>3</sup> – 12 cars/drop offs

### **Health and Safety**

The contractor has reported that there have been no recent significant injuries or incidents associated with the previous Solid Waste Services Contract and the new Waste Minimisation and Management Contract.

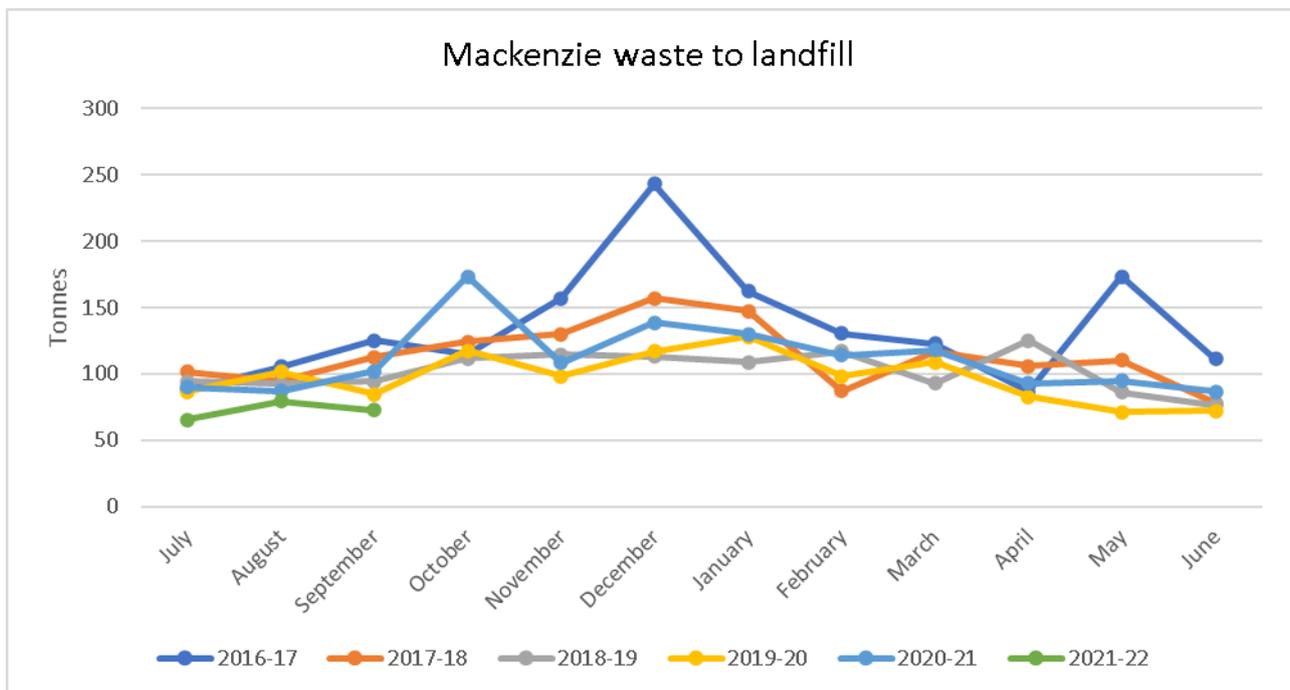

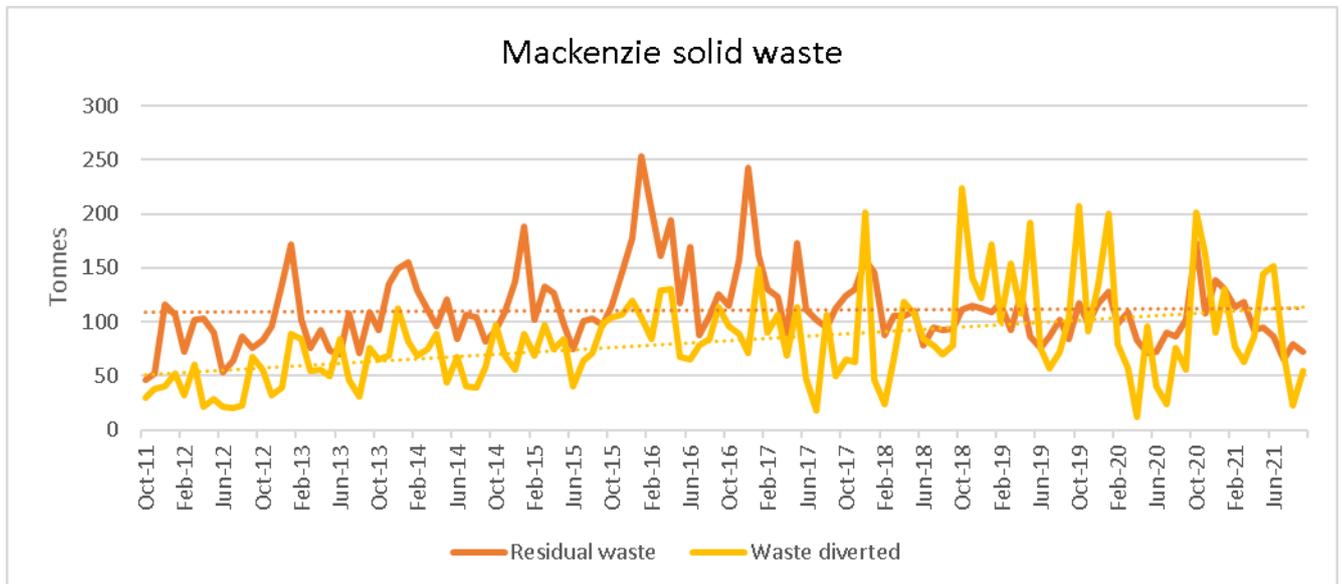

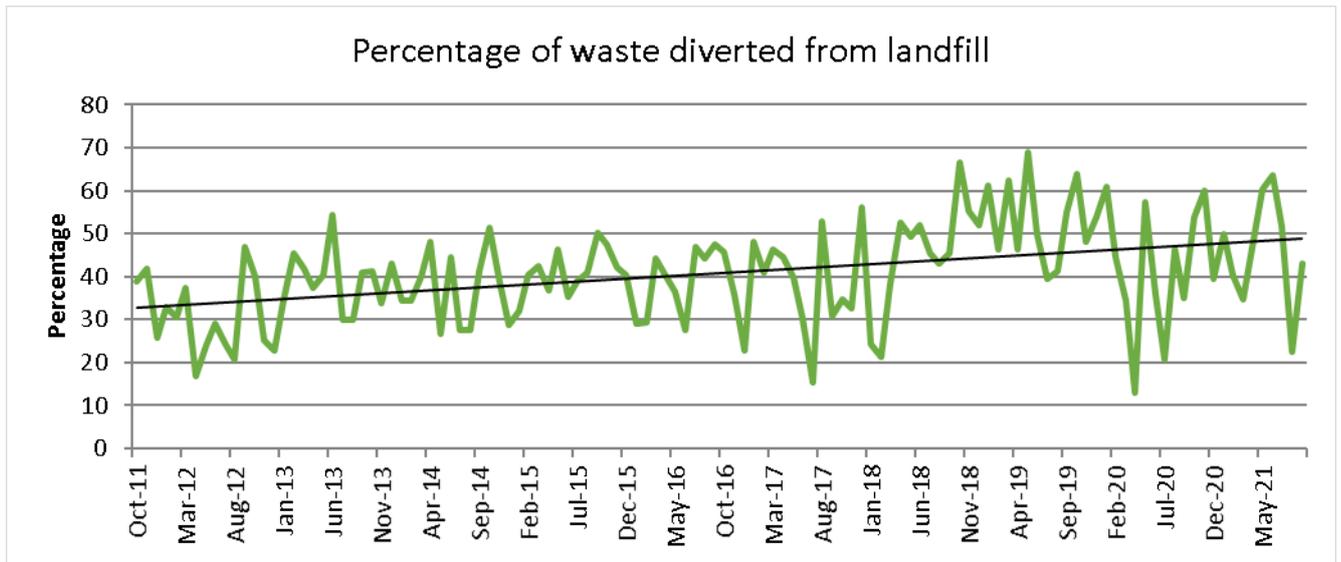

### **General Operations**

Waste services were able to work with agility through the recent Covid level changes, with support from both EnviroWaste and our Communications Team.

Recycling contamination rates continue to remain at acceptable levels and waste

### **Waste Data and Trends**

Waste diversion continues to increase, with the percentage of waste diverted from Class 1 landfill for 2020/21 reaching 48.6%. Graphs of waste data and trends are shown below:

### 5.3 COMMUNITY FACILITIES REPORT

**Author:** Brian Milne, Community Facilities and Services Officer - Contractor

**Authoriser:** David Adamson, General Manager Operations - Acting

**Attachments:** Nil

#### Council Role:

- Advocacy** When Council or Committee advocates on its own behalf or on behalf of its community to another level of government/body/agency.
- Executive** The substantial direction setting and oversight role of the Council or Committee e.g. adopting plans and reports, accepting tenders, directing operations, setting and amending budgets.
- Legislative** Includes adopting District Plans and plan changes, bylaws and policies.
- Review** When Council or Committee reviews decisions made by officers.
- Quasi-judicial** When Council determines an application/matter that directly affects a person's rights and interests. The judicial character arises from the obligation to abide by the principles of natural justice, e.g. resource consent or planning applications or objections, consents or other permits/licences (e.g. under Health Act, Dog Control Act) and other decisions that may be appealable to the Court including the Environment Court.
- Not applicable** (Not applicable to Community Boards).

#### PURPOSE OF REPORT

The report gives the committee an overview of activities within the community facilities area, with specific focus on township maintenance works.

#### STAFF RECOMMENDATIONS

1. That the Community Facilities report be received.
2. That Councillor ..... and Councillor..... be appointed to the Alps to Ocean Joint Committee.

#### HEALTH AND SAFETY

Township maintenance works are inherently high risk and involve work outside, with machinery and exposure to multiple hazards.

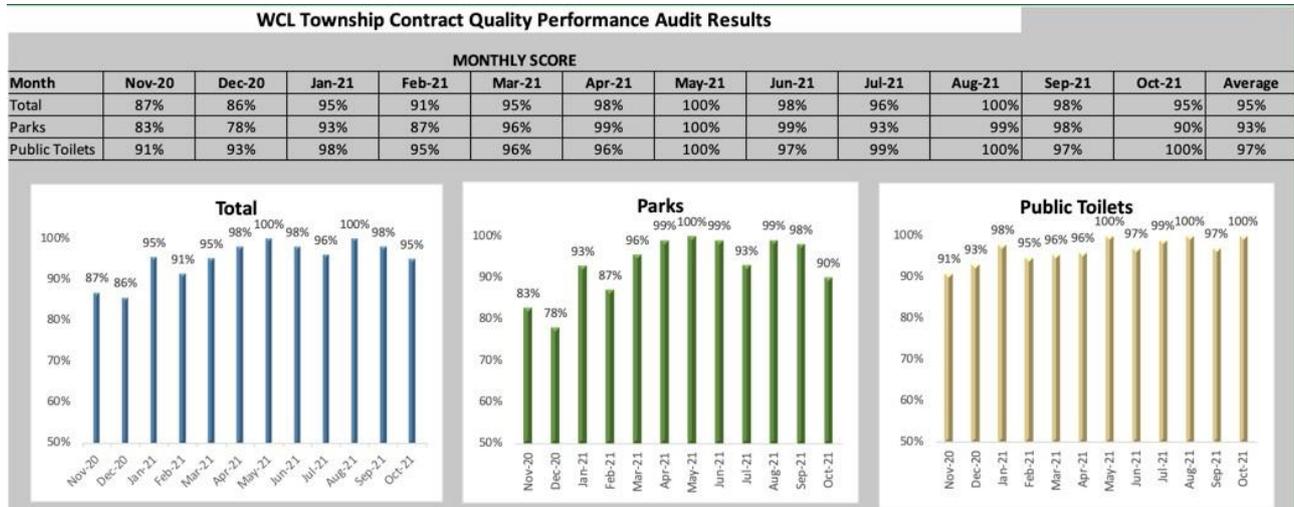

Staff continue to monitor H&S requirements as part of the monthly performance audits plus casual observation of staff and work practices at other times.

No issues with Health and Safety practices have been observed over the last 2 months.

**TOWNSHIP MAINTENANCE CONTRACT**

The township maintenance contract is operating effectively, with the typical spring challenges of rapid spring grass and garden weed growth. The contractor is managing this reasonably well with only isolated instances of grass height being above specification.

The summary of performance audits and reporting is provided in the chart below.

**POOL MANAGEMENT**

The operation of the Fairlie pool is now underway, with the new Contractor Belgravia, opening as scheduled at Labour Weekend. They are currently undertaking preseason set up works at Twizel pool which is scheduled to open on November 27<sup>th</sup>. Belgravia have used local contractors familiar with the pools plant operations to assist with the start up works.

**POOL HEATING**

We are currently working through the final details of the procurement documentation, and this is expected to be out to market by the date of this meeting.

Following more detailed technical assessment of the Fairlie Pool the Mechanical Engineers recommended that rather than add to the existing small heat with a second heat pump (as originally proposed) that there was only a marginal cost difference to replace this with a single larger pump, due to the ancillary works associated with this option.

It is anticipated that due to the lead time in the supply of the heat until and contractor availability, that the new heating systems won't be operational until March 2022.

**TREE MAINTENANCE**

There was another significant windstorm in Fairlie in late September, resulting in the loss of several major trees in the cemetery. The removal of the stumps is planned to be completed over the next few weeks.

There was also some damage to the large Douglas Fir trees on the Southern Boundary of Mclean Park, which is yet to be addressed. These trees appear to have been planted to provide shelter for the parks original amenity tree plantings and are now considered to be at the end of their useful life. Due to the cost of the remedial pruning and selected removal work that would be required to keep them in a safe condition, it is recommended that they be removed, with subsequent planting of specimen amenity trees, in keeping with the parks tree collection. This matter will be further reported to the Community Board for their consideration and approval.

Procurement for the maintenance work on the Peace Trees and the start of a programme of Pine and Douglas Fir removal in the cemeteries is planned to commence in the new year.

### **ALPS 2 OCEAN (A20)**

Staff having been working with Waitaki District Council to appoint a full-time trail manager to oversee the trial and development of marketing plan and partnership agreements. An update on this will be provided at the meeting. The interim trail manager has been effectively transitioning management duties from previous arrangements and will continue until the full-time manager is in place early in 2022.

Two Council representatives are required to be appointed to the new Joint Committee to provide governance of the trail for the partner agencies which are Mackenzie District Council, Waitaki District Council and the Department of Conversation.

### **LAKE ALEXANDRINA HUTS RESERVES**

The previous Community Facilities report suggested staff would instigate follow-up work with the objective of finalising a management arrangement for these reserves. This work has unfortunately been put on hold again due to limited staff resources and other priorities.

### **TWIZEL YOUTH CENTRE**

The future of this building is still under consideration following completion of community consultation.

### **TWIZEL EVENTS CENTRE**

Preliminary planning is underway to finalise and undertake the rectification and improvement works of the Twizel Events Centre. A further update will be provided at the meeting.

### **MBIE TIF PROJECTS**

The following four projects have received MBIE TIF funding and work is underway on the implementation of the projects with the following target completion dates

1. Fairlie Public Toilet – June 2022
2. Pukaki Lookout Public Toilet – June 2022
3. Fairlie Dump Station – June 2022
4. Ruataniwha Reserve (lagoon area toilet, carpark and landscaping)– December 2022

Invitation for proposals for the toilet projects have now been advertised and closes later this month with required completion of June 2022.

The preparation of the Lake Ruataniwha Reserve Management Plan is now also underway.

The preferred location for the Fairlie Dump Station is the Golf Club Carpark. This will require agreement for a Licence to Occupy with the Club and this is being work through.

An external project manager has been engaged to assist with the successful delivery of this project and the latest project report status is detailed below:

#### Public Toilets

##### Completed

- Procurement Plan approved
- RFP published on GETS 4/11/21

- Respondent briefing held with potential respondents included Permaloo, Exceloo, and two canterbury architectural practices
- Meridian kept informed of proposed developments at Pukaki
- Resource consent applications being prepared

#### Next period

- Continue to progress consent applications including affected party approvals
- Start discussions with landowner in Fairlie for easement for sewer connection
- Respond to RFP Q & A as they arise
- Confirm dates for RFP respondents to discuss initial ideas

#### Fairlie Dump Station

#### Completed

- Golf Club identified as preferred location by Community Board

#### Next period

- Select exact site with golf club and confirm occupation agreement (possibly on Rd Reserve)
- Confirm design and services requirements
- Draw up design for approval by golf club
- Apply to NZMCA for dump station hardware

### **CAPITAL DEVELOPMENT PROJECTS**

A number of projects are also underway within the Open Spaces area. A brief update on some key projects is listed below:

#### **1. Maukatua Reserve (D'Archiac Dr) Tekapo**

The contract for the development of this park has been awarded to Whitestone Contracting Limited. Work will commence from late November with completion of planting in March 2022.

#### **2. Man Made Hill Twizel**

Planting of a small trail area is being undertaken this November as a trial for more extensive planting with the objective of using low flammability native plants.

#### **3. Ohau Rd Reserve Twizel**

Preparation of a draft design plan is scheduled to get underway in November, followed by consultation in early 2022.

### **STRATEGY**

The draft Parks and Community Facilities Strategy has been approved by Council for public consultation which will be underway from the 15<sup>th</sup> of November through to the 17<sup>th</sup> of December. It is planned to have the Strategy ready for consideration of any changes and adoption by Council in early 2022.

**CONCLUSION**

Staff continue to be heavily engaged ensuring operational and customer service requirements are effectively managed while also overseeing the delivery of capital projects and other planned maintenance and improvement projects.

**5.4 3 WATERS AND FOOTPATH PROJECT UPDATE**

**Author:** Amy Westland, Administration Support - Operations  
**Authoriser:** David Adamson, General Manager Operations - Acting  
**Attachments:** 1. Beca 3 Waters and Footpath Update Report [↓](#) 

**STAFF RECOMMENDATIONS**

That the information in the Beca 3 Waters and Footpath Upgrade Report be noted.

**BACKGROUND**

In August 2020 Council resolved to procure a project manager from Beca Limited (Beca) to support the delivery of the approximately \$10m Council funded Water and Footpath Projects (funded through the 2020/21 Annual Plan).

The total project budget has increased due to scope changes with the Fairlie Water treatment plant, as reported through Council. The increased funds required are identified in the draft 2021/31 Long Term Plan.

Part of this commission was the provision of monthly reports on project progress. Beca's Monthly Project Report for July 2021 is attached.

Progress of the works are outlined within the attached reports. Beca Project Manager, Mr Peter Dawson will be present at the meeting to answer any questions on the attached report.

**CONCLUSION**

Beca's Monthly Project report is attached for information.

## Project Summary

Month shown: November 2021

Current Project <b>Water Main Renewals - Fairlie</b>	Current Phase <b>Tender</b>	Expected Capital Cost  <b>\$2,050,000</b>
Project URL		

### Project Status

**Progress in the last month**

Detailed design finalized, reviewed by MDC Engineering Team and tender documents completed.

**Planned progress**

Financial check to confirm Fairlie within the \$7m budget  
Completion of the RFT and upload to GETS

**Actions and decisions**

Review of RFT and confirmation to proceed based on available budget

**Stakeholder relationships**

NZTA confirmed depth of mains and accepted the design for the pipe across the bridge.

**Programme Commentary**

A couple of months behind completing the design for the pipe across the bridge and getting NZTA approval. Aim to appoint contractor in January and construction completion before the end of June

### Project Conditions

**Risk and Issues**

Low Moderate High

Contractor and material availability

**Scope**

No Scope Change 10% Deviation More than 10% Deviation

Inclusion of the pipe across the bridge to increase fire flows.

**Schedule**

On Track 10% Deviation More than 10% Deviation

Delays due to getting pipe bridge approved by NZTA

**Cost**

On Budget 10% Deviation More than 10%

Cost estimate of \$2,050,000, increase in cost due to requirement for deep pipes through NZTA land, pipe across the bridge and cost of TMP working within a State Highway.

**Resources**

Fully resourced Partially resourced Significantly under resourced

**Stakeholder and Communications**

On track Partially on track Off track

Sensitivity: General

## 5.5 3W STIMULUS GRANT PROGRAMME UPDATE

<b>Author:</b>	<b>Mike Davies, Program Manager - 3 Waters</b>
<b>Authoriser:</b>	<b>David Adamson, General Manager Operations - Acting</b>
<b>Attachments:</b>	<ol style="list-style-type: none"><li><b>1. 3 Waters Reform - September 2021 Final</b> <a href="#">↓</a> </li><li><b>2. 3W Reform - PO's at 8 Nov 2021</b> <a href="#">↓</a> </li><li><b>3. 3W Reform Programme r7 031121</b> <a href="#">↓</a> </li><li><b>4. 3W Stimulus Projects - Status 021121</b> <a href="#">↓</a> </li></ol>

### STAFF RECOMMENDATIONS

That the information be noted.

### BACKGROUND

The purpose of this report is to update Councillors regarding progress on the \$5.1m 3W Stimulus Grant provided by the Crown. Some additional information is contained within the powerpoint briefing provided to councillors 21 September 2021.

### CONCLUSION

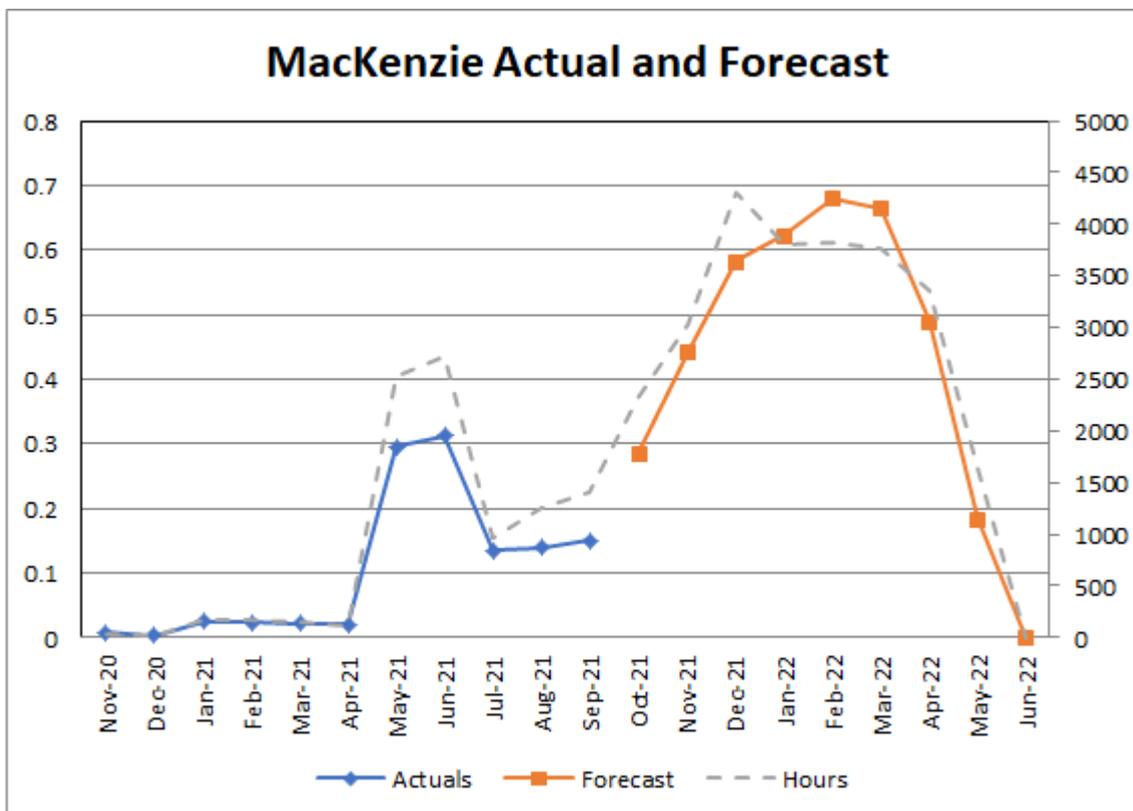

The recent time extension to June 2022 (from March 2022) provided by the Crown has alleviated some of the pressure, however some supply-chain issues do remain.

### OVERVIEW

- Crown grant of \$5.111m, which enables MDC to undertake many exciting projects it could not otherwise address
- There are 32 Projects that enable 3W planning and will improve outcomes for the community
- These projects have been reassembled into 20 packages. Many are about future planning, however there are several projects with consequential physical works, totalling around \$3.7m in value. These include Desludging (\$1m), Twizel WW Rising Main (\$900k), Twizel Water Meters Pilot (\$350k), WS Pipe Renewals (\$550k), Sustainable Water Demand Projects (\$240k), WWTP Monitoring equipment (\$210k), CCTV Pipe Inspections (\$180k), Burkes Pass WWTP Upgrade (\$100k).
- The Crown has recently extended the deadline from March 2022 to June 2022, in part due to the NZ Covid shut-down, but also in recognition of the NZ/Global supply-chain issues and the consequence of the stimulus fund itself, stretching consulting and contracting resources. This extension has reduced the likelihood of 'Plan B' being required – plan B being to cancel projects not likely to complete in time, and increase the planned expenditure on WS Renewals, which is identical in scope to MDC's own stimulus project.
- There is ongoing liaison (as required) with AEC, ECAN, Arawhenua, NZTA, landowners (easements) and community (remote drinking water supplies). There have also been webinars and announcements on the website and in local media.

**FINANCIAL**

- Up to the end of September 2021, expenditure to date was approximately \$1.1m (22%), however little had been spent on physical works at that point. Refer attached spreadsheet ‘3 Waters Reform – September 2021 final’.
- Committed costs are currently about \$3.0m (58%), with tenders about to be let for another \$1.2m. We also expect to place orders for water meters supply this month (approximately \$500k). A summary of PO’s opened to date is attached as ‘3W Reform – PO’s at 8 Nov 2021’
- The programme still requires expenditure in excess of \$400k/month to complete by June 2022, though the physical works projects will assist in achieving this cashflow – the Desludging and Rising Main themselves account for around \$2m or 40% of total spend. Refer chart below for actual to end September 2021 and current aggregated forecast cashflow.
- Individual package forecasts are being monitored and adjusted so that the overall spend can be kept within the overall stimulus budget.

**PROGRAMME**

- A programme showing the individual logic and status of each package is updated at least fortnightly. The time extension has eased the risk somewhat, however consultant capacity and supply chain issues do mean that this is an ongoing risk. Refer attached programme ‘3W Reform Programme r7 031121’ for detail.

**INDIVIDUAL PACKAGE SUMMARY STATUS**

*(numbers refer to original project numbers assigned for DIA reporting)*

Scopes for individual projects/packages have been refined to suit conditions. Some minor changes to forecasts have been made. A Project Substitution Request (PSR) has been submitted to DIA or the replacement of projects 28 & 29 (Albury Rural and Allandale WS scheme protozoa compliance) with more comprehensive Water Safety Plans (almost the same scope, but more solution based, and expanded to all water supply schemes).

Further detail can be found on the attached spreadsheet '3W Stimulus Projects – Status 021121'.

#1 WS Renewals - complete and in the ground.

#2/4/5/30 Misc Fairlie pipework projects - scoped/briefed, not awarded yet. We will proceed with scope and design related to Project #4 but the other 3 can be sourced at short notice and we need to see where forecasts are heading overall. Effectively they are on hold, and if necessary, MDC will add these projects to their LTP programme as individual values are relatively low.

#3 Tekapo WWTP future planning/study (GHD) - Design Basis Memo Complete and Long-List Options prepared. Site tour with Runanga undertaken in October. Now working on short list and key site investigations.

#6-7 Twizel Rising Main (\$1m) - design complete (Baseline) and tender closed 2 November – evaluation underway. A key cost to establish for overall budget reconciliation. Direct purchase of PE pipe by MDC to enable a prompt start. Fibreglass wet-well procurement is likely to be an issue, however.

#8 Tekapo WW PS upgrade – complete.

#9 Misc discussions with iwi re wetlands/planting at WWTP's (study) - site tour with iwi held 20 October, with a good response.

#10-11 Stock Truck & Septage disposal (study) - Stock Truck Study now cancelled (will be NZTA led), and funds diverted to Water Safety Plans. Septage disposal study well advanced. Needs to be reconciled with Influent Screening.

#12-13 BP WWTP upgrades - Design complete (Beca) with small physical works to follow - several packages about to go to tender.

#14 CCTV Pipeline Inspection scoping complete (Beca) and out to tender - closes 9 November.

#15-16 Sewer and Water hydraulic modelling (study) – tender closed end October, about to award.

#17-18 WWTP monitoring equipment (design-build) - concept report complete, tender package u/way.

#19-20 Desludging (\$1m) - awarded. Civil works (containment ponds) now completed (Twizel), with desludging to start 8 November. Still targeting end March 2022 completion.

#21 WWTP Influent screens (study) - design complete (Beca). No budget for installation but cost estimates will go into LTP.

#22+26 (then 27) Remote Water Supplies (sources and treatment/reticulation) - research and Ratepayer Surveys completed (Aqualinc), though poor response. Report by Christmas. Exemplar projects (#27) to follow, can be tailored to meet timeline and budget. Likely that physical works value will be reduced in scope due insufficient time.

#23-24 Water Meter Trial Twizel – extensive research into both capex, opex and proof of concept trials have established (via a Multi-Criteria Analysis) a clear preferred path forward, along with

indicative costs for both the Twizel pilot scheme, and the district overall. A Summary report and recommendation for the mayor/CE to approve is being prepared, prior to placing an order.

#25 Sustainable Water Demand – WCC are currently completing their report, which will cover off water demand, water availability, and make recommendations for exemplar projects to demonstrate the effectiveness of the proposed solutions. Some funds will likely go towards water meters as this is one of the most effective solutions to realize sustainable water demand.

#28-29 Albury Rural and Allandale Water Supply Compliance - being supplanted by 6 x Water Safety Plans - scope change by PSR. WSP are undertaking, with a comprehensive site visit and risk workshop programme commencing 15 November

#31 Twizel WWTP groundwater monitoring sites - complete, just need close out report

#32 and #33 are 3W Reform projects - Prep by MDC, and Programme PM. Both underway.

Opex projects (Accounts assessment)  
28+29 Scope Change; Compliance with existing Albury/Allandale WSP's amended - now 6 x new WSP's (budget bolstered by deletion of project 10)

Open tender  
Budget balancing projects changed in this update  
Physical works - some dependent on study/design  
In process  
Contracts in place

## 5.6 ENGINEERING MANAGER'S REPORT

**Author:** David Adamson, General Manager Operations - Acting

**Authoriser:** David Adamson, General Manager Operations - Acting

**Attachments:** Nil

### Council Role:

- Advocacy** When Council or Committee advocates on its own behalf or on behalf of its community to another level of government/body/agency.
- Executive** The substantial direction setting and oversight role of the Council or Committee e.g. adopting plans and reports, accepting tenders, directing operations, setting and amending budgets.
- Legislative** Includes adopting District Plans and plan changes, bylaws and policies.
- Review** When Council or Committee reviews decisions made by officers.
- Quasi-judicial** When Council determines an application/matter that directly affects a person's rights and interests. The judicial character arises from the obligation to abide by the principles of natural justice, e.g. resource consent or planning applications or objections, consents or other permits/licences (e.g. under Health Act, Dog Control Act) and other decisions that may be appealable to the Court including the Environment Court.
- Not applicable** (Not applicable to Community Boards).

### PURPOSE OF REPORT

This report was written by John Mackie, Acting Engineering Manager. It is to update the Engineering and Services Committee on the progress of various projects and the normal operation of the department for the past month.

#### STAFF RECOMMENDATIONS

1. That the information in the Engineering Managers Report be noted.
2. That a letter of appreciation, signed by the Mayor, be extended to Whitestone Contractors Ltd in recognition of their many years of service as Council's principal roading maintenance contractor.

### GENERAL

#### Development Resource Consents

Resource consents continue to be lodged that require input from the engineering team prior to being granted. Engineering reviews of the Mackenzie Park development are currently in progress. A

review of the Mackenzie Engineering Standards for Subdivisions is underway and will be based on NZS 4404:2010, modified to suit local conditions.

### 3 Waters Stimulus Fund Projects

The quarterly report for the period ending 30 September 2021, has recently been submitted to the DIA in accordance with Crown Funding Agreement. As of that date, 21% of the programme had been completed and several major projects have made considerable progress. These include the desludging work of the oxidation ponds at Twizel, a tender was awarded for the water and wastewater modelling project and tenders have closed on the Twizel Rising main contract.

#### Funding status

Funding received	\$2,560,000
Spent to date	\$1,093,000
Forecast next quarter	\$1,184,000
Total Programme	\$5,112,000

### 3 WATERS OPERATIONS

This has been a quiet period with just the normal day-to-day things happening. Water demand is trending up with the warmer weather. The Burkes Pass solar panels were replaced and the plant is working as it should again and not running off the small generator. A small storm water pipe was replaced at the intersection of Tolbat and Mackenzie St in Fairlie. There have been other issues which have been more related to the pipe renewal work that is being run by BECA.

The outlet magnetic flow meter at Twizel was damaged in an electrical storm in September and there are delays in procuring a replacement meter.

#### Budget Breakdown

##### Water

Operation and maintenance expenditures as at the end of September 2021.

- Electricity cost of \$23,867 is over budget by \$743
- Contractors cost of \$90,070 is under budget by \$25,154
- Water quality monitoring cost of \$14,967 is under budget by \$3,630
- Consent monitoring cost of \$0 is under budget by \$1,251

##### Wastewater

Operation and maintenance expenditures as at the end of September 2021.

- Electricity cost of \$7,778 is under budget by \$3,871
- Contractors cost of \$55,417 is under budget by \$32,71
- Quality monitoring cost of \$2,017 is under budget by \$3,530
- Consent monitoring cost of \$4,539 is over budget by \$999<sup>1</sup>
- Landfill and bin hire cost of \$234 is under budget by \$1,392<sup>2</sup>

1. Ecan have increased their wastewater monitoring activity which is increasing this cost.
2. This cost is for the hire of skip and disposal to landfill of the screening waste rags and other rubbish the gets into the sewer system.

The has been no CCTV work done in this financial year.

**Stormwater**

Operation and maintenance expenditures as at the end of September 2021.

- Contractors cost of \$6,448 is under budget by \$1,374
- Consent monitoring cost is over budget by \$1,374

**Allandale**

Operation and maintenance expenditures as at the end of September 2021.

- Electricity cost of \$1,252 is under budget by \$497
- Contractors cost of \$13,475 is under budget by \$10,999
- Water quality monitoring cost of \$2443 is over budget by \$532<sup>3</sup>

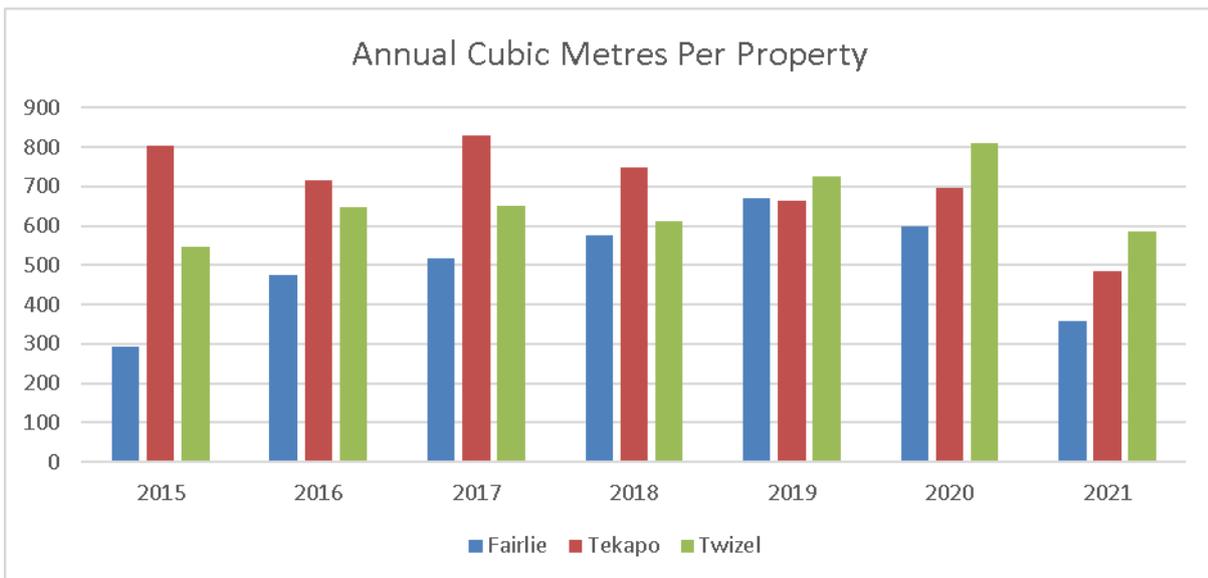

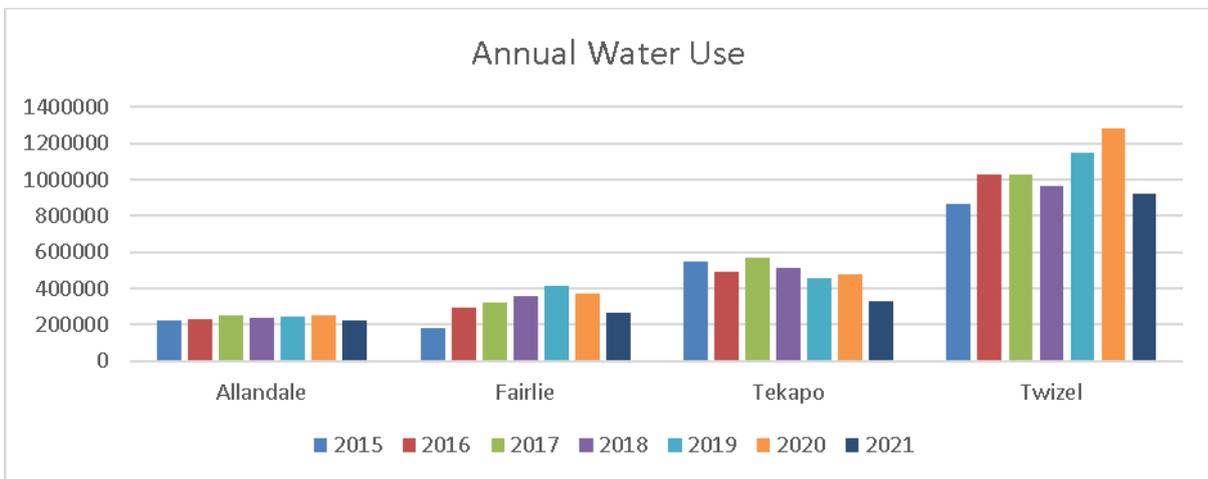

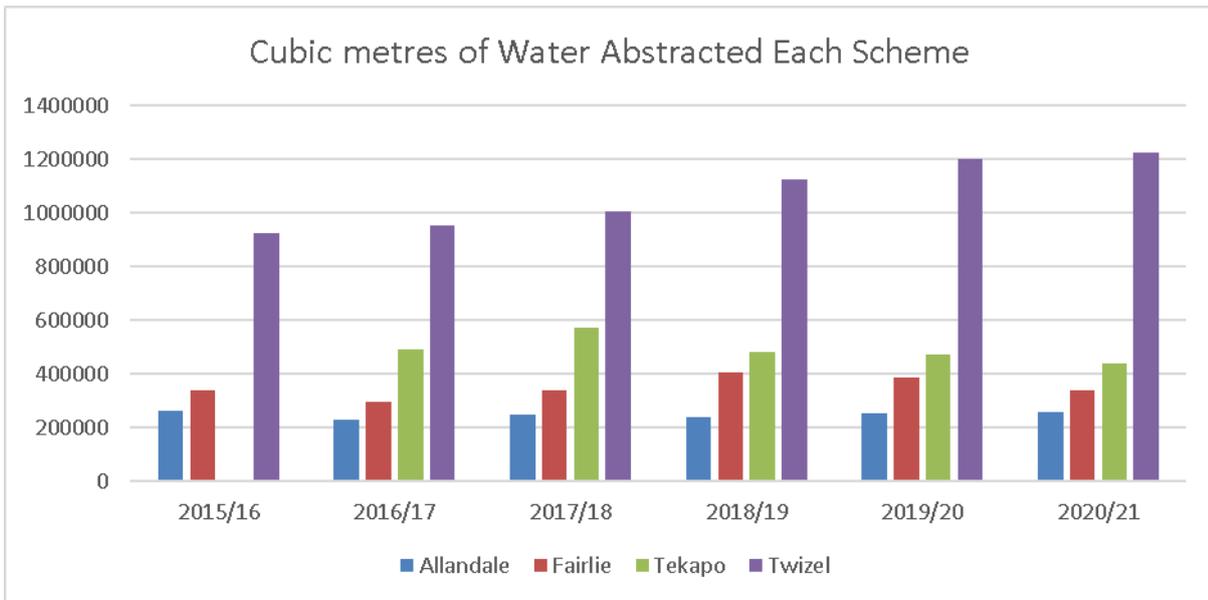

3. *This is due to carrying out an increased number of samples to ensure bacterial compliance.*

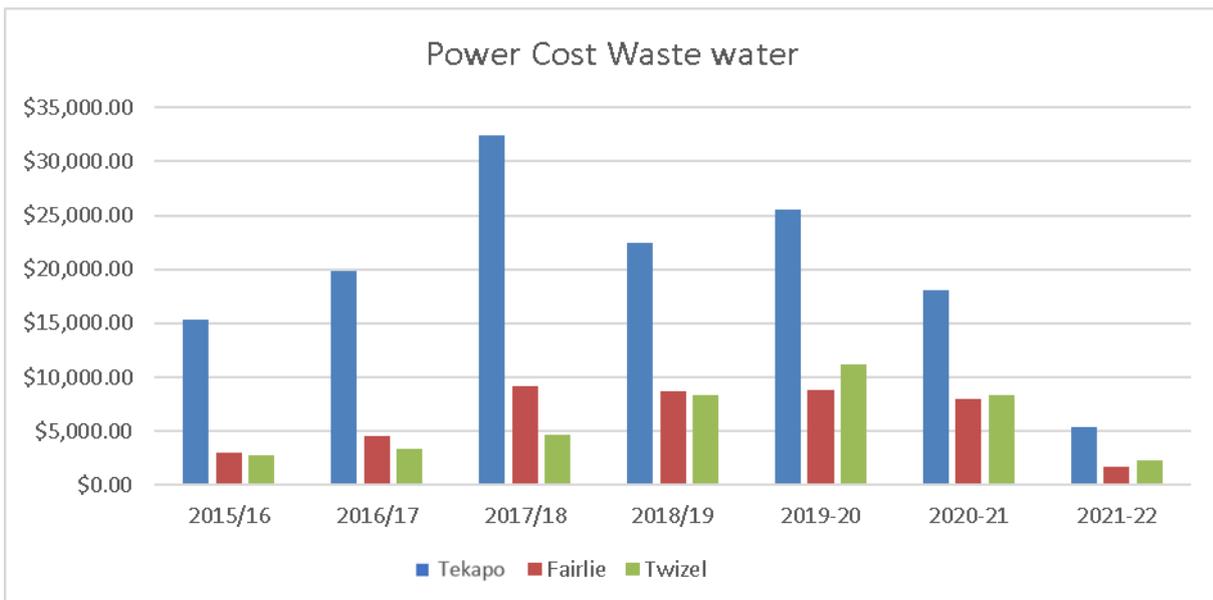

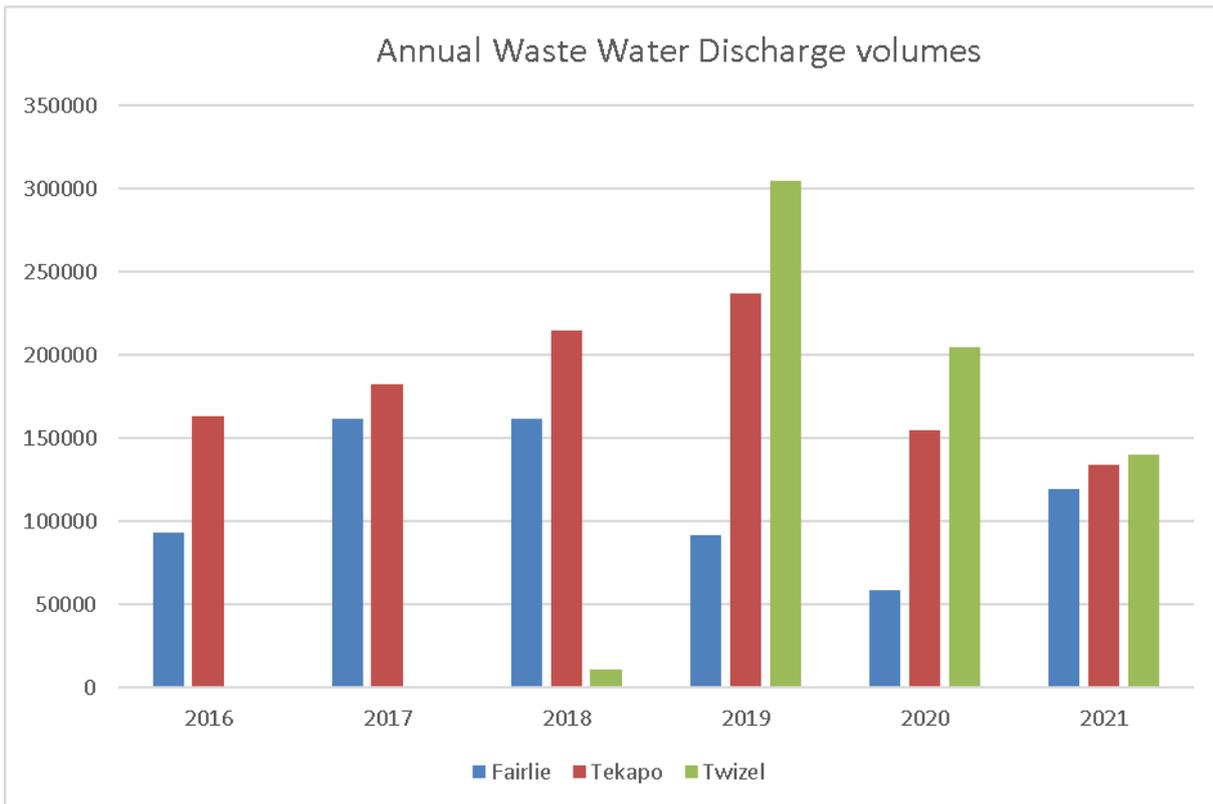

**Water Quality Testing Results to the end of October 2021.**

	Albury	Allandale	Burkes Pass	Fairlie	Kimbell	Tekapo	Twizel	
Plant	21	21	21	39	0	37	40	179

	Total Received	Completed	Completed on time
Allandale	11	10	10
Burkes Pass	0	0	0
Fairlie	19	18	18
Tekapo	16	15	15
Twizel	70	70	67
Total	116	113	110

**ROADING REPORT**

**Maintenance Contract**

The new maintenance contractor, Fulton Hogan, commenced operations on 29 October 2021. They have been working to setup contract and work procedures over the previous month and are currently out on the network and getting established. Grading has begun. Staff are currently tidying up the previous contract with Whitestone. We extend our thanks to Whitestone for their service over the last contract term, as well as for the many previous years of service to Council. We would also recommend that a letter be sent from Council, acknowledging Whitestone for their service.

**Flood Works**

Most of the flood works are now complete. Re-gravelling of the Lochaber Road is now complete as well as seal replacement on Clayton Road. Plantation Road bridge access, where the abutment washed out, is also now fully reinstated and the road reopened. North Opuha Bridge still requires work and an approach is being formulated with Environment Canterbury to develop an appropriate methodology. There are several structures that still require works, both major and minor, and these will continue to be progressed. The majority of other repairs or minor damage will be incorporated into, or with other maintenance activities in the area going forward, rather than being treated as site specific works.

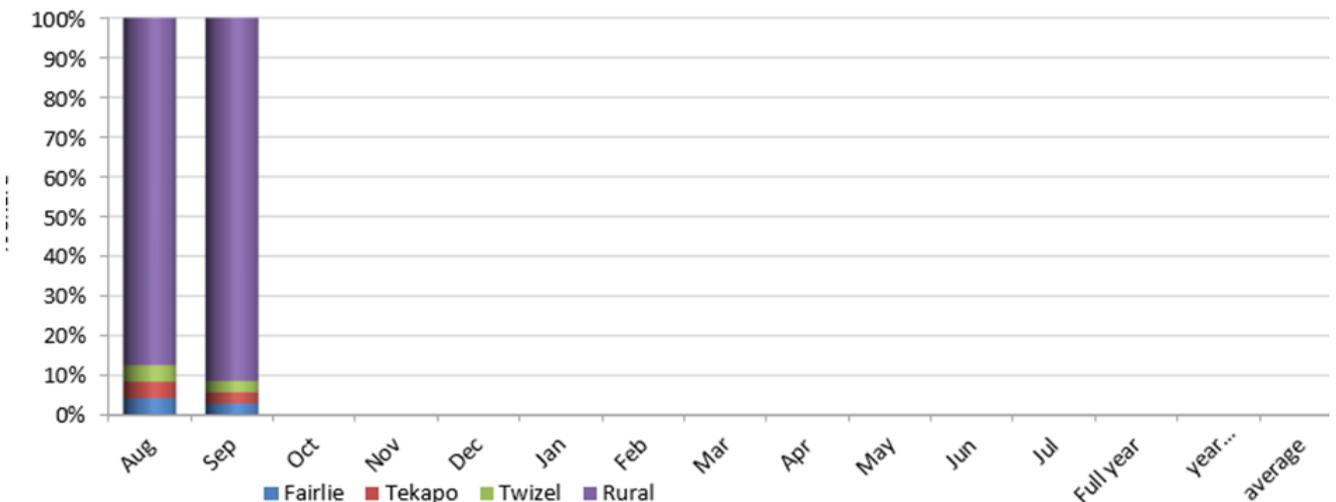

**Service Installations**

There have been several utility service installations installed in the district recently, causing a number of disruptions. We thank the community for their patience. Works includes Chorus - Ultra Fast Broadband roll out in both Fairlie and Tekapo, Alpine Energy – power cable installations in Tekapo, Council Three Waters – Pipe upgrades in Twizel and coming into Tekapo. This has affected several footpaths road surfaces and berms. Service providers are able to use the road corridor to lay their services but the remediation is to be like-for-like or better at the completion of the works.

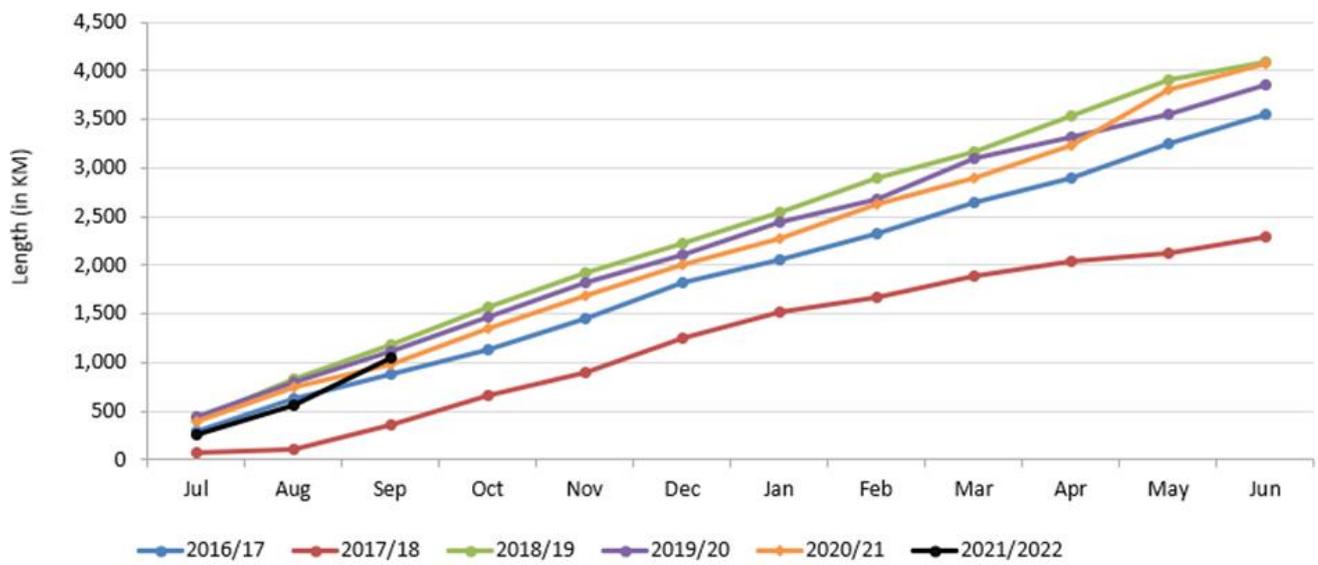

**Financial**

Most of the spend to date has been on remediating flood works from the previous financial year. Due to the change in maintenance contractor, we are currently working on improving the financial and performance reporting system with Fulton Hogan. We have received the final allocations from Waka Kotahi (NZTA), which have been reconciled against the draft LTP. We are awaiting the outcome of LTP to finalise the programme for the remainder of the year, in order to confirm and set the final budgets.

**Amalgamated Roding Budget 2020/2021**

**Unsealed Road Grading (Cumulative)**

**6 PUBLIC EXCLUDED****RESOLUTION TO EXCLUDE THE PUBLIC****RECOMMENDATION**

That the public be excluded from the following parts of the proceedings of this meeting.

The general subject matter of each matter to be considered while the public is excluded, the reason for passing this resolution in relation to each matter, and the specific grounds under section 48 of the Local Government Official Information and Meetings Act 1987 for the passing of this resolution are as follows:

<b>General subject of each matter to be considered</b>	<b>Reason for passing this resolution in relation to each matter</b>	<b>Ground(s) under section 48 for the passing of this resolution</b>
<b>6.1 - Minutes of Public Excluded Engineering and Services Committee Meeting - 17 August 2021</b>	<p>s7(2)(b)(ii) - the withholding of the information is necessary to protect information where the making available of the information would be likely unreasonably to prejudice the commercial position of the person who supplied or who is the subject of the information</p> <p>s7(2)(i) - the withholding of the information is necessary to enable Council to carry on, without prejudice or disadvantage, negotiations (including commercial and industrial negotiations)</p>	s48(1)(a)(i) - the public conduct of the relevant part of the proceedings of the meeting would be likely to result in the disclosure of information for which good reason for withholding would exist under section 6 or section 7
