Finance manager Sandy Hogg introduced this report. Cr Barwood asked what would happen if the policy was breached. This would be reported to the Audit and Risk Committee and Council.

Current term deposits were generally fixed for between 90 days and six months. Council was currently doing high-value capital projects and needed to have a high amount of money on call to pay for these.

CARRIED**7.6 ROAD LEGALISATION KIMBELL**

Engineering Manager Joni Johnson was asked to introduce this report. The Mayor noted this would be her last meeting and he thanked her for her work at Council. She responded with thanks and wished the best for the Mackenzie District.

This report related to two roads at Kimbell that Council was maintaining, but did not own. It was always intended that Council own these roads. The way to acquire them was with the Public Works Act. This report asked for approval to use the Public Works Act and delegate decisions on this process to the chief executive.

Cr Munro asked about the possibility of compensation. The owners were now deceased. Mr Adamson said he had correspondence dating back to 1941 on this matter. This was a very low value piece of land. The desire was to tidy this up.

There were small lots on this road so a number of developers involved. No specific community consultation has been carried out. Cr Cox asked for some consultation to take place. Part of the process was to do public notices.

RESOLUTION 2022/75

CARRIED

7.7 FLOOD DAMAGE REPORT - UNBUDGETED EXPENDITURE

This unbudgeted expenditure was due to six back-to-back events in June across the district, with snow, flooding and a wind event. This saturated the roads and surrounding ground causing surface flooding, pavement softening, scouring both minor & significant, and severe damage across the network district wide. A lot of the network was cut off and there were still roads closed across the district due to faults.

Roading manager Scott McKenzie was welcomed to the meeting. He said there had been six flood events back to back, causing significant damage.

Currently looking at \$4 million to \$4.5million worth of flood damage. This report to Council was looking for the local share of that money. Part would be funded by Waka Kotahi.

Cr Barwood asked if there had been any feedback from Waka Kotahi on the need to build roads that would not wash out in the next flood. The chief executive said Waka Kotahi were looking for a business case. The Mayor said Waka Kotahi has no funding. Flood damage was right across the south island. The first priority was to get the roads back to a trafficable state.

The Mayor said as a small council we maintained more road per head of population than anyone else, along with a million tourists using our roads. This had always been ignored by the government. A \$1million extra spend on roads would be an 18% rates rise for ratepayers. Mr Adamson said he was looking at borrowing the money and paying it back over 20 years or similar.

Cr Cox clarified that a business case to Waka Kotahi would come back to Council for approval. Yes. Mackenzie was better off than some districts that had roads that would never re-open.

RESOLUTION 2022/77

Moved: Cr Anne Munro

Seconded: Cr Stuart Barwood

- 1. That the Flood Damage Report be received.

CARRIED

RESOLUTION 2022/78

Moved: Cr Stuart Barwood

CARRIED

7.8 PARKS AND AMENTIES STRATEGY ADOPTION

The purpose of this report was to adopt the Mackenzie District Council Parks and Amenities Strategy.

Community Facilities Officer Brian Milne said there had been some additional requests come up since this strategy was prepared, including a number of requests for places for equestrian activity. He believed this could be investigated as a separate piece of work.

Cr Munro said she did not want future conversations in regards to cycle and walkways to take place without recognising trails for horses alongside. She asked for assurances that if Council was approached in the future to talk about trails, the needs of horse riders were not lost.

The Mayor said he had had a couple of meetings with people from Kimbell about the future cycleway that would be put in to Kimbell. He would also like to have seen horse riding included in the strategy.

David Adamson suggested commissioning a separate piece of work on this matter to look at it holistically across the district.

Cr Cox asked for the priorities in the strategy to be workshopped with the community boards.

Further discussion took place on the need to align priorities with what the community wants.

RESOLUTION 2022/79

7.9 INFRASTRUCTURE REQUIRED FOR GROWTH IN TWIZEL

This report seeks approval to establish a budget from the Capital Reserves Account and commence development of strategy and design work to upgrade and extend the existing wastewater and water supply networks to service the proposed intensification areas in Twizel.

Joni Johnson said there were three areas in Twizel where development could not occur due to limitations to water and wastewater infrastructure. The paper asked for an initial fund to carry out investigations.

Cr Cox questioned why priority would be given to these areas without considering all of the areas in the district that were identified for future development in the spatial planning exercise. David Adamson said the money was available in reserve for these areas. This was an opportunity to spend this money before the new Three Waters entities came in.

Aaron Hakkaart said these areas were already developed and it fell to Council to fund the infrastructure. Future green field development would require developers to fund infrastructure.

RESOLUTION 2022/81

Moved: Deputy Mayor James Leslie

Seconded: Cr Matt Murphy

1. That the infrastructure required for growth in Twizel report be received.

CARRIED

RESOLUTION 2022/82

7.10 DISTRICT PLAN REVIEW TIMETABLE UPDATE

The purpose of this report was to update the Council on the District Plan Review and seek endorsement of the proposed work programme.

Planning and Regulatory Manager Aaron Hakkaart proposed changing the timetable to allow elections to take place and a new council to get up to speed on the district plan review.

Cr Munro asked if the timetable was achievable and Mr Hakkaart said yes.

The purpose of this report was for Council to adopt the suite of documents related to Stage 2 of the Mackenzie District Plan Review and approve Plan Change 21 and Plan Change 22 for formal notification pursuant to Clause 5 of the First Schedule of the Resource Management Act 1991 (the Act).

Aaron Hakkaart read from an executive summary of this paper. The summary is copied below:

Plan Change 21 and 22 – Executive Summary

Proposed Plan Change 21 and 22 form Stage 2 of the review to the Mackenzie District Plan. Proposed Plan Change 21 seeks to implement the Mackenzie Spatial Plans that were developed prior to the District Plan review, to provide a high-level plan for the growth and development of each of the District’s towns and small settlements over the next 30 years. It also updates the framework applying to each residential and business zone. Proposed Plan Change 22 relates to the management of lighting within the District.

Plan Change 21

Plan Change 21 introduces eight new zones in accordance with the National Planning Standards:

Medium Density Residential	Residential living and other compatible activities that support and are consistent with the character/amenity values of the zone

The Plan Change will also amend the definitions contained in the Interpretation Section in Part 1 – Introduction and General Provisions and will make supplementary amendments to the Operative Plan.

Objective and Policy Approach

The zones introduced in PC21 each have two key objectives:

- A Purpose Objective which clearly outlines what is expected in each zone and what drives the way activities are managed; and
- A Character and Amenity Values Objective which outlines the expected built form and amenity outcomes.

The policies for each zone have been drafted based on the following principles:

- Enable Policies – support activities that are central to the zone purpose
- Provide For Policies – outline activities that are anticipated within the zone where certain criteria are met
- Avoid Unless Policies – outline activities that are not anticipated within the zone, except in limited circumstances
- Manage Policies – outline how effects of activities (including built form) will be managed in the zone.

The purpose of this report was for the Council to formally approve Plan Change 13 and 19 to the Mackenzie District Plan in accordance with Clause 17(1) of Schedule 1 of the Resource Management Act 1991.

This report came as a surprise to councillors but was just an administrative task. There was no record of the final adoption of these plans, which had completed the process. Plan Change 13 was 11 years in the making, starting in 2007.

This report was a statutory requirement and for information only. Aaron Hakkaart said it was noted in the report that Council had increased staff resources in this area. The Mayor asked for the trend of the number of dogs registered in the district. This year is consistent with last year. There were still a number of outstanding dog registrations.

It was good to see that the number of dog complaints this year were minimal.

The meeting adjourned for lunch at 12.35pm and reconvened at 1.10pm.

7.14 WATER ZONE COMMITTEE REFRESH APPOINTMENTS

The purpose of this report was to provide Council with an overview of the 2022 CWMS (Canterbury Water Management Strategy) Zone Committee Refresh and the Selection Panels' recommendations for the CWMS Zone Committees.

The Mayor thanked Cr Munro and Cr Barwood for their dedication to attending these zone committee meetings.

Cr Barwood said he had enjoyed his time on the committee. In the Omarama area there had been more uptake of environmental initiatives than in the Tekapo area, and this was disappointing. He offered to circulate the Upper Waitaki action plan to the councillors.

Cr Munro said it had been a challenging time on the OTOP committee. After the Zone Implementation Plan was implemented the momentum was lost. The committee was going into the new triennium without a chair. She felt the committee needed to find its new purpose.
